

My name is Rizkallah Salloum, I am an experienced Web Designer and Frontend Developer with a demonstrated history of working in the design and Information technology industry. Skilled in Web Design, HTML5, CSS3, JavaScript.

Over 10 years of freelance and studio experience turned my passion into a career.

Objectives:

- Help businesses grow through well-coded, well-designed, and efficient public and private applications.
- Expand and improve my skillset by seeking out and conquering obstacles on the road to business success.
